

## Appian Headquarters

Appian, a leader in BPM software developing and management, expanded its headquarters in early Fall 2014 after hiring over 150 new employees in 2013. This 55,000 square foot space includes open workspaces in addition to traditional offices to encourage a relaxed but professional atmosphere. RTKL DC chose Pantheon's porcelain tile for the lobby and entryway, the beginning of the modern look that continues throughout the space.

## Project Details

**Project Address:** 11955 Democracy Drive | Suite 1700 Reston, VA 20190
