## EXCELLENT DESIGN

LED mirrors are one of the most interesting ways to introduce new, energy-saving lighting in your bathroom and make the bathroom experience more comfortable. Thanks to our many years of experience in the hospitality sector, we are able to offer LED mirrors of the highest quality. Our mirrors have all electronics components (LED lights and defogger system) with UL certification.

**Graniti Vicentia's LED Mirrors are quality products, designed with a rational aesthetics and built with refined materials, in order to exploit the shapes.**

## VERSATILE ARTIFACT

Combining design and technology we create lighted mirrors that not only provide the ideal lighting to look at yourself, but that are long-lasting, and energy-efficient. All mirrors are copper-free and they have a fingerprint proof protection for greater cleaning and aesthetic results. We have different design types and sizes so you can choose the best solution for your bathroom and if you are not satisfied we can produce customized items.

**Products are flexible, lights temperature and forms are customizable to the environments and guest needs, creating a unique and practical furniture”**
