GRANITI VICENTIA BRINGS VALUE TO OUR CUSTOMERS

Graniti Vicentia provides **solutions to create spaces** that support and reflect the individuality, image and brand statement of our customers. We offer a menu of products, services and support to develop your project from the conception to completion.

Our approach is based on a collaborative team of professionals who share their knowledge to work on the project, from concept design, to the technical development of product solutions, through installation.

Our goal is always to exceed the owner's expectations.

PRODUCT SOLUTIONS TO MEET YOUR INDIVIDUAL PROJECT NEEDS

Our ever-growing product portfolio offers furniture, lighting, accessories and more. We are dedicated to working with manufacturers that focus on detail, utilize refined materials and are reliable. We provide our customers with solutions of value as a partner in creating spaces that must be experienced!

GV is a leader in the industry collaborating to create customized and exclusive designs. Quality construction paired with durable materials ensures that our products are not just designed well but also function perfectly for each space.

Quality products for unique projects.

HIGH-QUALITY MATERIALS AND FINISHES

Our shower doors create a unique hospitality experience radiating beauty and refined design. Produced through our network of manufacturers, we provide products of quality that can be seen through the purity and vast offering of luxury materials. Shower doors are bright in appearance with the typical green color visible at points of intersection and without inclusions.

The purity of high-quality materials and finishes

PRODUCT SAFETY AND DESIGN

Glass shower enclosures are visually beautiful, easy to clean, durable and designed with high safety standards

Designed with safety in mind, each component of the shower door is considered individually and in total finish out. This includes using high-quality tempered glass, along with durable anti-corrosion hinges, a fitted rail system, and a handle chosen from a variety of options available. Additional safety precautions are included through the use of automotive safety tempered glass, which even if broken it will not shatter or result in blunt splinters.

PRODUCT DETAILS

Glass sheet

Glass is visually bright, free of inclusions, with the typical green color seen at intersecting points.

Common glass/half-tempered glass: you can see impurities and from intersecting surface, the color isn't green.

Safety corner

All corners are rounded for safety. Seamed edges are lightly sanded to eliminate any sharp edges making it safe to handle.

Shape corner without safety corner.

Safety tempered glass

Our Automotive safety tempered glass: if broken remains connected, reducing the risk of injury.

Common glass or half-tempered glass: will break into pieces with sharp edges that can be dangerous.

Nano Glass (German Brand Nano Water)

We use imported nano glass from Germany, that gives glass surface a lotus leaf effect. Through the use of Nano Glass, our glass doors remain pristine in appearance and support easy maintenance. Water beads up and falls to the bottom quickly, instead of collectively causing water streaking. Nano Glass will not absorb dust nor yellow in color.

BEST FINISHES

Every element of the shower doors and bases are perfected to last over time. The hardware treatment **maintains its polish is corrosion resistant:**

Our manufacturers use a 72 hour salt spray test to ensure the hardware, rails and handles are corrosion resistant and are finished with 8K mirror polish for #304 hardware.

The unique quality of the glass showers is the main feature of our products

STANDARD PRODUCTS

GV-LY-CON-A01 Concealed roller dual sliding shower door

Description

Glass thickness: 3/8" nano-glass & Tempered glass

Glass color: Crystal clear glass/ frosted glass

Door style: Concealed roller dual sliding door

Hardware: Aluminum wall-frame, top rail&bottom rail

Roller: Sus304 concealed roller

Handle: Sus304 round handle (handle is optional)

Finish: High glossing finish (Brush/Black painting finish is available)

Package: KK carton box with plywood box

Customized size available

GV-LY-DS001 Dual sliding shower door

Description

Glass thickness: 3/8" nano-glass & Tempered glass

Glass color: Crystal clear glass/ frosted glass

Door style: Regular dual sliding shower door

Hardware: Sus304 wall-frame, top rail&bottom rail

Roller: Sus304 hanging roller

Handle: Sus304 square towel bar handle (handle is optional)

Finish: High glossing finish (Brush/Black painting finish is available)

Package: KK carton box with plywood box

Customized size available

GV-LY-DS002 Dual sliding shower door

Description

Glass thickness: 3/8" nano-glass & Tempered glass

Glass color: Crystal clear glass/ frosted glass

Door style: Update roller with 2 screw hole dual sliding door

Hardware: sus304 wall-frame, top rail&bottom rail

Roller: Sus304 update roller

Handle: Square design sus304 material (handle is optional)

Finish: High glossing finish (Brush/Black painting finish is available)

Package: KK carton box with plywood box

Customized size available

GV-LY-FIX01 Fix glass panel

Description

Glass thickness: 3/8" nano-glass & Tempered glass

Glass color: Crystal clear glass/ frosted glass

Door style: Fix glass panel

Hardware: 3-side sus304 U groove channel

Handle: No (Optional towel bar handle is available)

Finish: High glossing finish (Brush/Black painting finish is available)

Package: KK carton box with plywood box

Customized size available

GV-LY-HD001 Hinged shower door

Description

- Glass thickness: 3/8" nano-glass & Tempered glass
- Glass color: Crystal clear glass/ frosted glass
- Door style: Door style (hinged door, 1 fix glass+ 1 movable glass, frameless door)
- Hardware: sus304 wall-hinge & door clip
- Handle: Sus304 round handle (Optional handle is available)
- Finish: High glossing finish (Brush/Black painting finish is available)
- Package: KK carton box with plywood box
- Customized size available

GV-LY-HD002 Brass hinge pivot shower door

Description

- Glass thickness: 3/8" nano-glass & Tempered glass
- Glass color: Crystal clear glass/ frosted glass
- Door style: Regular dual sliding shower door
- Hardware: Sus304 wall-frame, top rail&bottom rail
- Roller: Sus304 hanging roller
- Handle: Sus304 square towel bar handle (handle is optional)
- Finish: High glossing finish (Brush/Black painting finish is available)
- Package: KK carton box with plywood box
- Customized size available

GV-LY-SD001 Big roller regular design single sliding shower door

Description

- Glass thickness: 3/8" nano-glass & Tempered glass
- Glass color: Crystal clear glass/ frosted glass
- Door style: Regular design single sliding shower door
- Hardware: Sus304 2-side frame, top& bottom track
- Roller: Sus304 big roller
- Handle: Sus304 square towel bar handle (Handle is optional)
- Finish: High glossing finish (Brush/Black painting finish is available)
- Package: KK carton box with plywood box

Customized size available

GV-LY-SDN101 Small roller single sliding shower door

Description

- Glass thickness: 3/8" nano-glass & Tempered glass
- Glass color: Frosted glass on the middle (Clear glass is available)
- Door style: Small roller single sliding shower door
- Hardware: Sus304 frame and track
- Roller: Sus304 small roller
- Handle: Sus304 square handle (Handle is optional)
- Finish: High glossing finish (Brush/Black painting finish is available)
- Package: KK carton box with plywood box

Customized size available

GV-LY-S-DS101 2-piece roller dual sliding shower door

Description

Glass thickness: 3/8" nano-glass & Tempered glass

Glass color: Clear glass (frosted glass is available)

Door style: 2-piece design roller dual sliding shower door

Hardware: Sus304 frame and track

Roller: Sus304 2-piece design roller

Handle: Sus304 round handle (handle is optional)

Finish: High glossing finish (Brush/black painting finish is available)

Package: KK carton box with plywood box

Customized size available

GV-LY-GSR01 Frameless Dual sliding shower door

Description

Glass thickness: 3/8" nano-glass & Tempered glass

Glass color: Clear glass (frosted glass is available)

Door style: 2-piece design roller dual sliding shower door

Hardware: Sus304 round horizontal towel bar handle

Roller: Sus304 2-piece design roller

Handle: Sus304 round handle (handle is optional)

Finish: High glossing finish

Package: KK carton box with plywood box

Customized size available

GV-HD001 Matt black finishing shower door

Description

- Glass thickness: 3/8" nano-glass & Tempered glass
- Glass color: Crystal clear glass
- Door style: Door style hinged door, 1 fix glass+ 1 movable glass, frameless door
- Hardware: sus304 wall-hinge & door glass
- Handle: Sus304 round handle (Optional handle is available)
- Finish: High glossing finish (Brush/Black painting finish is available)
- Package: KK carton box with plywood box
- Customized size available

PACKAGING

We follow specific practical guidelines for safe shipping

- 160kgs load-carrying reinforced KK carton
- Plywood box package for easy loading & unloading to save in labor costs
- Clearing packing for accessories for easy checking
- Perfect packing with foam and polybag to prevent scratching
- Packaging includes detailed installation instructions

MAINTENANCE AND CLEANING

Tempered Glass maintenance

Please avoid strong impact, especially take care of the corner of glass shower door.

If there is any breakage on the corner of tempered glass shower door, glass explode risk will be much higher. Because stress points of tempered glass all concentrate around the corners, protect the glass corner during installation or later using is very important. Please do not use edge tool or other hard objects to knock on the glass corner. During installation please use wood brick to protect the corner as well.

Don't use rough substance to clear glass surface.

Do not use wire to clean the glass surface to avoid scratches, especially inner side of glass shower door, has nanometers disposal, will be removed easily by rough substance.

Away from acid-base substance (amictic liquor with strong acid and alkali).

Banana oil (another name is thinner), this kind of corrosive liquid has component of caustic soda (NaOH) and hydrofluoric acid (HF), but glass is made up of silica (SiO₂), when they meet, they will produce a chemical reaction and has strong corrosion.

Prevent direct sunlight and explosion on glass surface.

Shower door must be installed on solid wall.

Wall thickness should bigger than 15 cm considering of the safety. Especially our shower door is 3/8" thickness, solid wall is safer.

Hardware accessories maintenance

Add lubricant, lubricating oil, or wax into sliding rail and roller regularly to make sure they are sliding smoothly.

Do not pushing too strong when opening or closing the door, avoid glass panel fall off from sliding rail.

Don't use rough substance to clear hardware surface.

Use neutral detergent to clear hardware surface, do not use Acid alkaline Lotion to make corrosion.

Use Cotton Towels to clear the dirt.

During installation, use packing film or newspaper to protect hardware from surface scraping.

Use adjusting screw of roller regularly, avoid screw loose after long time using.

Cleaning tempered glass

For common dirt: use clear water to wash glass, then use glass cleaner and glass wiper to remove dirt, finally use cotton towel wipe dry the glass.

Tips: You can also use toothpaste to remove dirt if no glass cleaner, you can also mix Vinegar and salt together to replace glass cleaner.

For stubborn dirt: use Diluted alcohol to clean. Remember do not use Acid alkaline Lotion.

Cleaning hardware accessories

For common dirt: use Diluted alcohol to clean. Please remember do not use Acid alkaline Lotion.

For stubborn dirt: You can use Automotive polishing wax to clean.
